Dear Brother Phelps,

I was in Boston the last of last week & the beginning of this, and was anxious to see you but was unable to. Be assured I sympathize with you very sincerely in your recent affliction. May the God of all grace sanctify this event to your good, & enable you to bear up under the melancholy event like a christian, and a wise minister.

I wanted to consult you about an article in the forth coming Repository on the A B C F. M. Hope you will like it. I read your's with interest

Prof. Cowles sent a memorial or rather several memorials, on one sheet, from Ohio. Can you inform me which or if it was secured? Those you sent me were circulated to sign- natures obtained. One was sent to Dr Cox for presentation. Do you know whether these were printed? Would it not be well to get at the A B C F. M. office a catalogue of all that were printed, with the number of copies to each?

Truly & affectionately yours

Lewis Tappan
